EDUCATION

The Ohio State University, College of Engineering

Columbus, Ohio

Bachelor of Science in Mechanical Engineering

May 2028

Minor: Business Analytics

GPA: 3.83/4.00

NSF HAMMER – (*Forging Technology Research*) – Built a SFTC DEFORM data pipeline (13% preprocessing speedup) and ran 100+ FEA thermomechanical deformation simulations to generate training data for AI powered manufacturing technologies

Skills: Python, SQL, Power BI, Tableau, FEA, C/C++, MATLAB, OnShape, Bass Diffusion Modeling, Agile (Kanban)

RELEVANT EXPERIENCE

AMEND Consulting

Cincinnati, Ohio

Business Analyst Co-Op

Incoming Aug 2026

- Incoming consultant in AMEND's 16-week Analyst Program working across AI, finance, and operations with clients
- Refining skills in Tableau, Power BI, Python, and SQL through AI Development Track and client engagements

Arch City Studios (Forge Nest)

Columbus, Ohio

Product Development + Finance

May 2026 – Present

- Building financial model linking per-contract BOMs to income statement, balance sheet, and cash flow outputs to enable real-time scenario analysis on sourcing decisions and inform commercial contract pricing
- Architecting product roadmap to translate military regulations, sourcing constraints, and financial inputs into engineering design sprints, directly influencing build sequencing and design decisions across 3 CNC platforms
- Sourcing and benchmarking alternative suppliers across 350+ BOM line items on price, performance, lead time, and defense compliance to reduce single-source risk and unlock procurement savings on COTS components

GE Healthcare

Columbus, Ohio

Market Strategy Analyst

Jan 2026 – May 2026

- Utilized Python and 9 analogous cases to construct a Bass Diffusion Model that anchored a 7-year GTM strategy
- Built a go-to-market strategy with market segmentation, financial models, and product strategy for AI-enabled imaging
- Benchmarked 30 AI software and hardware competitors to assess displacement risk and form partnership strategy

Steiner + Associates

Columbus, Ohio

Innovation Analyst

Feb 2026 – April 2026

- Applied agile sprint cycles to iterate on 5 innovation concepts, validating findings against 800+ data points
- Led 30+ interviews to diagnose a student engagement gap in a \$150M real estate asset and developed a growth strategy and pilot that led to a 19% increase in brand awareness and 12% increase in overall foot traffic

LEADERSHIP & INVOLVEMENTS

Phi Chi Theta

Columbus, Ohio

Professionalism Committee & Professional Development Project

Sep 2025 – Present

- Built SQL + Tableau analytics on 100K+ e-commerce orders across 9 tables using CTEs and window functions; identified that 90-day cohort retention averaged 1.12%, signaling acquisition driven model and a need to build retention
- Planned career cohort programming across banking, consulting, and corporate tracks for 112 PCT members

Student Consulting for Non-Profit Organizations

Columbus, Ohio

Project Manager (Greater Cincinnati Homeless Coalition)

Sep 2025 – Present

- Managed 7-person consulting team using Kanban-style workflow tracking across 5 parallel workstreams while balancing scope, bandwidth, and shifting client needs across a semester-long engagement to ensure on-time delivery
- Delivered a 6-month roadmap, marketing plan, standardized SOPs, and \$500k grant pipeline to non-profit leadership

Buckeye Undergraduate Consulting Club

Columbus, Ohio

Recruitment Board

Sep 2025 – Present

- Selected to be one of twenty members from an applicant pool of 220+ to join BUCC's Fall 25' Consulting Education
- Led networking and presentations for recruitment efforts of the Spring 26' Consulting Education Program Cohort
